

Debris Management (G-202)

Pierce County, March 12-14, 2013

COURSE GOAL

The goal of the course is to enable state, tribal, and local government officials to successfully plan for, respond to, and recover from a major debris-generating event.

COURSE OBJECTIVE

Upon successfully completing this course, the participants will be able to apply knowledge to:

- ❖ planning for debris management activities
- ❖ implementing and managing debris activities
- ❖ addressing issues associated with environmental and historic preservation considerations
- ❖ debris forecasting and estimating
- ❖ debris contracting
- ❖ debris management site evaluation
- ❖ operation and debris monitoring
- ❖ FEMA eligibility and reasonable costs criteria as pertinent to presidentially-declared incidents
- ❖ debris planning and response and recovery activity issues

TARGET AUDIENCE

This course is designed for state, tribal, and local officials who are responsible for planning, managing, and/or implementing debris removal and disposal activities from all types of disasters.
